PRODUCT FEATURE:

- * Electromagnetic force transducer, Wind-resistant cover with 3 doors, Easy operation.
- * LCD backlighting display, clear reading, switch optionally the display method in the light and dark environment to protect the eyesight.
- * Automatic external calibration
- * Overloading/underloading alarm, the temperature compensation, tare of full weighing range, accumulative/regressive features.
- * Multiple weighing units conversion and data output, g, ct, oz etc..
- * Measuring way: counting, percentage, etc. for the different weighing.
- * Standard RS232 output interface connected with the computer and printer etc..
- * Density measurement (Optional parts of the density devices).
- * Optional under hook device
